

Meaning, connections, hormones,
health, food, etc.

Teeth Healer Mod 1

Nowadays we can heal many issues for a healthy and comfortable life. Also for our health we can heal many discomforts, physical disturbances, pain and diseases.

But what do we really know about our teeth, jaws and mouth? Is that part different than the rest of our body? After research I discovered a lot of interesting information about teeth, jaws, the mouth and everything which is related and connected to that part of our body.

We use our mouth for many processes like eating, drinking, breathing, talking, etc. But are we really one with these bodyparts?

In Module 1 you will be showed the interesting World in the mouth. What is there all and how does it function? And to what and where is that connected in direct and indirect meaning? Which hormone systems have an important interaction with our teeth and mouth?

This workshop is for healers and everybody who can heal on themes, subject, believes, blockings, etc.

There are also more general workshops for everybody: Healthy teeth. For dentists there are other possibilities, see website.

Registration for the workshop on the website (agenda page) or email.

**Invest in yourself, your practise, others
for healthy , shining teeth.**

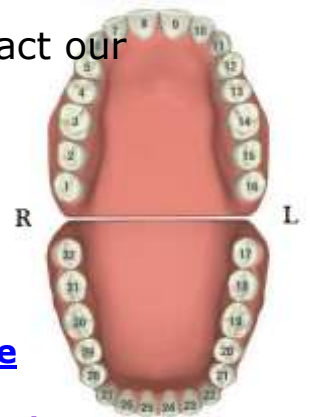

Subjects in module 1:

What are the subjects in module 1?

- Sharing information about Teeth, jaws and mouth.
- Being conscious of and feeling body parts.
- Healing each other on subjects and issues of these parts.
- Cleaning personal blocks on healing teeth and jaws.
- Knowledge about processes happening in the mouth.
- What is the function of all those teeth?
- Connections to other body parts and systems.
- Food, minerals and vitamins.
- The Calcium system.
- Cleaning of Amalgam "poisoning" parts in the body.
- Healing each other on subjects and issues of food.
- Hormone systems and glands in and around that area.

In a relaxed environment we will share, heal and interact our experiences with the group.
