Teeth Healer Mod 2

Nowadays we can heal many issues for a healthy and comfortable life. Also for our health we can heal many discomforts, physical disturbances, pain and diseases.

But what do we really know about our teeth, jaws and mouth? Is that part different than the rest of our body? After research I discovered a lot of interesting information about teeth, jaws, the mouth and everything which is related and connected to that part of our body.

In module 2 we go deeper in all aspects and connections of jaws and teeth. How are all systems(energetic) connected, like meridians, chakra's, aura's, light, consciousness fields, etc. What are the lessons, emotions, meanings per tooth? What is so special on the position of the TMJ and the connections of the wisdom teeth? What about the first 21 years of our lives where we get our teeth and we experience life and get our issues?

This workshop is for healers and everybody who can heal on themes, subject, believes, blockings, etc.

There are also more general workshops for everybody: Healthy teeth. For dentists there are other possibilities, see website.
